KHAIR / CREATIVE R&D

PROJECT? NO PROBLEM.

Research. Art. Design. Technology. Production.

From an unclear idea to a direction you can test — then make real.

2026 / PROVISIONAL STUDIO IDENTITY

WHAT CLIENTS ACTUALLY BRING

“We know something needs to change. We don’t know what to build.”

A PRODUCT

A founder has an idea, but not a testable direction.

A PLACE

An existing space needs a new experience or reason to return.

A SYSTEM

A service works, but its operation and customer experience do not connect.

© 2026 / Omar Khair independent practice

THE STUDIO IS NOT THE FORMAT.

An idea may become a screen. a room. an object. a system.

OUR ROLE

Find the strongest direction first.

The medium follows the evidence.

© 2026 / Omar Khair independent practice

FOUR WAYS IN

One practice. Several starting points.

01

FIND THE DIRECTION

Research, contextual evidence, options and a decision brief.

02

MAKE IT TANGIBLE

Visual directions, prototypes and experiential tests.

03

DESIGN & BUILD

Digital products, websites, systems and designed interactions.

04

PRODUCE & CONNECT

Specialist production and supplier coordination, when contracted.

RESEARCH FIRST

From uncertainty to a useful decision.

01	**REALITY**	People / context / constraints
02	**REFERENCES**	Beyond the obvious category
03	**DIRECTIONS**	Alternatives and trade-offs
04	**PROOF**	Something testable, not a moodboard
05	**BUILD**	Execute, partner or stop

SELF-INITIATED CASE STUDY

ATHR.

From space to experience.

Browse original ATHR repository ↗️

NOTE: concept development and web material — no installed/ROI claim

THE REAL QUESTION

What should guests notice, feel and remember?

On-site exploration → visual directions → story / light / interaction proposals.

© 2026 / Omar Khair independent practice

EVIDENCE, NOT EMBELLISHMENT

Three directions. Three original / proposal studies. A public website and video artifact.

01 VISUAL DIRECTION STUDIES

design-1 / design-2 / design-3.jpeg

02 SPACE COMPARISON CONCEPTS

La Roche / Boulevard / Cavello

03 PUBLISHED WEB EXPRESSION

DIFFERENT MATERIALS

One practice learns across systems and mediums.

BALCONA

MULTI-ROLE PRODUCT

Guest → service → kitchen → owner

Staging system, not verified live café operation.

FOKHARA

MATERIAL-LED DESIGN

Ceramic process → digital behavior

Research and interactive structure, visual refinement ongoing.

FIRST CONTACT

PHYSICAL × DIGITAL

NFC object → consented encounter

Production-oriented interactive work; public impact unverified.

© 2026 / Omar Khair independent practice

A CLEAR FIRST STEP

Two decisions. Two contracts. No vague unlimited scope.

A / DISCOVERY

CLARITY SPRINT

One bounded question. Context research, 2–3 meaningful directions, a tangible proof and a next-step decision.

Working option: 5–7 days, scoped per client.

B / EXECUTION

BUILD / PRODUCE

Once the direction is chosen, define engineering, design development, external specialists and review milestones.

Quoted separately with responsibilities and rights.

© 2026 / Omar Khair independent practice

SMALL ON PURPOSE

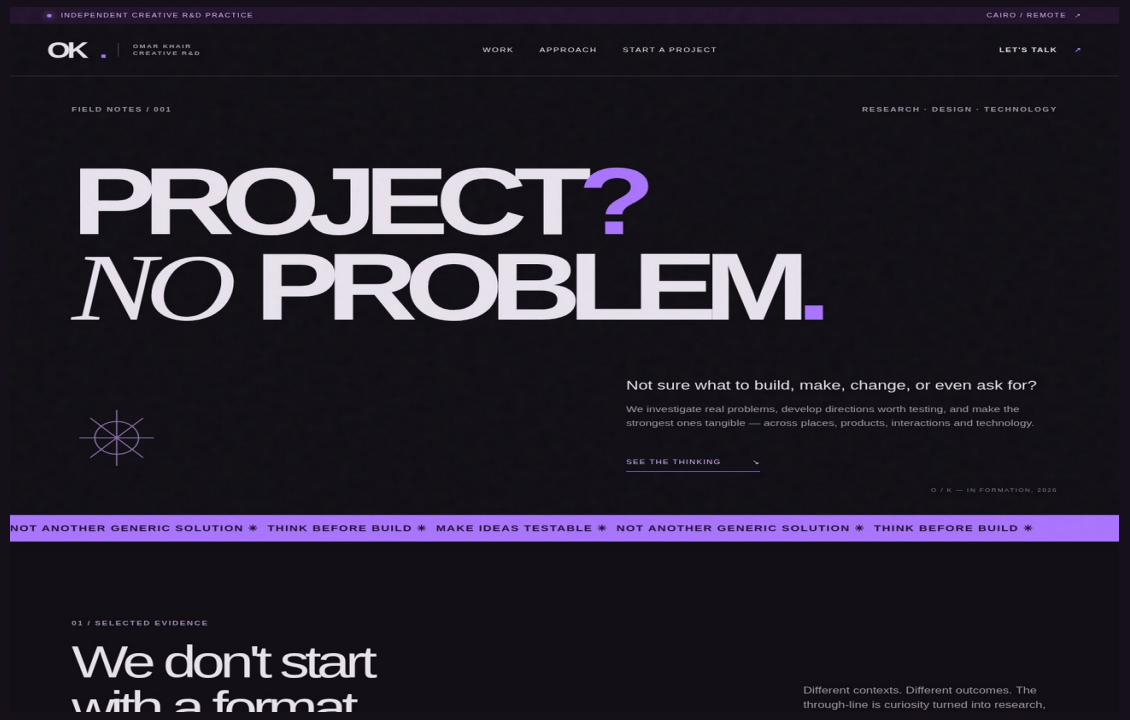

Founder-led thinking; specialists join where the work needs them.

CORE	Creative research / direction / product & engineering
COLLABORATORS	Visual craft, motion, photography, spatial design, fabrication
BOUNDARIES	Third-party manufacturing and specialist work scoped and credited
RULE	Never present external expertise as in-house capacity
